

AW169

AGUSTA

AW169

Experience,
elevated.

On board an Agusta helicopter, you stand out from the crowd. Innovation, top-class performance, tailored solutions make every flight a pleasure. Elevate your desire for distinction into a vertical flight dimension. Move your world with the hallmark of excellence, every day.

Style meets comfort.

— Imagine a moment dedicated to yourself. Feel at ease, in total relaxation and comfort, cocooned in a sophisticated environment where every detail goes beyond your expectations: refined materials, climate control, soundproof cabin, luxurious space. Let your imagination fly. The AW169 is ready to take off with an unparalleled blend of style and comfort.

Move your world.

We know time is precious. And your free time is always special. Agusta helps you to savour every moment safely, comfortably and in style. The AW169's unique Auxiliary Power Unit (APU) mode ensures all comfort devices can operate when the rotors are stopped. It also allows the cabin to be cooled or heated even before passengers get on board, while the dual zone air-conditioning system makes it possible to manage the cockpit and cabin temperatures independently.

Outstanding technology.

Life can be hectic: cities are crowded, there are constant demands on your time and business cannot be left on the ground while you are in the air. The AW169 ensures that you reach your destination with precision timing. It provides the latest generation avionics systems and exceptional external visibility that maximise situational awareness and minimise pilot workload, leaving you free to work and stay connected using your own personal devices.

Exceptional cabin flexibility.

— Enjoy a relaxing flight whether for business or leisure thanks to excellent soundproofing and entertainment systems. The AW169's bright cabin can be arranged in a variety of configurations: from a five-seat to an eight-seat design. There are three luxurious configurations to comfortably accommodate your family, guests or business partners.

DIAMOND INTERIOR

5 passengers on reclining seats.
Options up to 7 seats.

PEARL INTERIOR

6 passengers on reclining seats (4)
and fixed ones (2).
Options up to 7 seats.

SILVER INTERIOR

8 passengers on fixed seats.

Make it truly yours.

— Your helicopter represents who you are: stylish, sophisticated and unique. It's a one-of-a-kind perfect machine, thanks to our experienced design team who will advise on the best match of features and high-quality furnishings. The result is a sumptuous blend of craftsmanship, innovative technology and the highest safety standards.

Choose colours, materials, finishings. Create the perfect environment with mood lighting. Every detail will be brought to life with the finest Italian craftsmanship to reflect your personal style.

Stay connected.

The time you spend flying is part of everyday life. Make it count. Listen to the music you love, relax while watching a movie, catch the latest season of your favourite TV series and stay in constant touch with your world thanks to a satellite phone system. Customise your flight experience with flight maps, cruise information and external cameras that are seamlessly integrated into the cabin entertainment system.

Always ready to fly.

Our Customer Support, Services & Training team is always by your side. An extensive network of service centres offers support anytime and anywhere: at every stage of your customer journey with us. From maintenance and delivery of spares to integrated training services delivered at our Academies or virtually; cutting-edge solutions to make your flight planning activities and data analysis easier, through to live and virtual support services. We're constantly innovating to offer you the best support: flexible and tailored to meet your exact needs.
